***Reason for Allowance***

1. The following is an examiner's statement of reasons for allowance:

The instant application is directed to a non-obvious feature implementation over the invention or method described in cited prior arts. The non-obvious feature implementation comprises a combination of steps as specified in independent claims, wherein a hand-over facility configured for performing a hand-over process based upon difference of transmission/reception condition of each of a plurality of antennas, such that a base station providing the largest or strongest difference signal among antennas is selected to be a handed-off base station. This non-obvious feature is included in all independent claims 23, 28, 33, 38-40.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Drawings***

2. The drawings are objected to because D1 as recited in block 34 of Fig. 11 should be changed to D1. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The

figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.
